

SANSKRITI – THE HERITAGE

At Bloom, it has been our relentless effort to provide our students with flexible, self-paced and engaging competency-based education. To develop creative problem-solving skills and empower our students to face the challenges in future, we also encourage experiential and art-integrated learning. Bloom's Heritage Club, Sanskriti is a move towards heritage awareness and conservation through various online activities, virtual tours, discussions, presentations, etc.

The 'Heritage Club' seeks to regain a lost touch to our past, culture and history. We hope this initiative will help provide our children with the grounding necessary to take on further personal growth while remembering our place in history.
