

■ An interactive session with teachers from Indonesia was organised at Bloom Public School.

hosted the zonal inter-DPS western

project was initiated by two former students, Dr Abhijit Saha and Dr Prasenjit Saha in memory of their late father, Dr AK Saha, former scientist at National Physical Laboratory, New Delhi.

This annual venture enables the development of a scientific attitude towards experimentation. This year, three events, model making, science quiz and the most challenging investigatory projects competition, were held for different levels of students.

It consisted of a preliminary round where 16 schools submitted a short abstract on a

research project undertaken by them, out of which 11 projects were selected for presentation.

Springdales School, Dhaula Kuan, with the topic, Malaria, an enigma won the Indian Science Congress trophy for innovation in science.

The overall winners of the competition were Springdales School, Pusa Road.

Bluebells International won the runners up trophy.

Interactive session

Bloom Public School had an interactive session with teachers from Indonesia.

Twenty two primary teachers selected by the Government of Indonesia were sent to Delhi for learning the best practices in teaching followed in India.

Bloom Public School hosted the teachers for a day where they interacted with the students and teachers.

Anniversary

Recently, in honour of Sanskriti's 14th birthday, the cultural council organised a festival to showcase the
